

Perth International Jazz Festival Inc.

Environmental Sustainability Commitment Statement

PIJF Inc. aspires to be a sustainable organisation, demonstrating environmental sustainability throughout our activities, in organising and delivering great musical events for the community.

We are committed to continual improvement to reduce the environmental impact and carbon intensity of what we do, while continuing to deliver a quality festival.

Our objectives are to:

1. Embed sustainability into our organisational culture.
2. Maximise the efficient use of energy, water and paper.
3. Minimise waste generation and promote reuse, recycling and composting.
4. Minimise fleet and travel carbon emissions and offset emissions where possible.
5. Promote sustainability practices to our artists, partners and concert attendees as part of our events, to demonstrate best practice and encourage others to 'get on board'.

Adopted at an Ordinary Board Meeting on 23 September 2019.
